

CONSUMER GOODS

Complex Consumer Goods Robotics

Whether you package personal care products, cosmetics, cleaning supplies, or toiletries, we have the robotics solution for you.

For more than 30 years, QComp Technologies has solved the toughest automation challenges in the consumer goods and packaging industries. Our innovative spirit and experience offer manufacturers a robust robotic solution to optimize their processes and guarantee high-speed packaging without sacrificing throughput and quality requirements.

Developing a Solution Isn't Enough.

Customers choose QComp because of our deep experience, skill, and ingenuity in designing and installing custom robotic automation for complex consumer goods handling challenges. Our team works side-by-side with our customers to simulate potential solutions in real-time and, together, we envision a finished product. We are relentless in our pursuit of customer satisfaction, not only promising optimal OEE but delivering on that promise.

We conquer complexity.

Features

- High speed picking & placing
- Reliable and repeatable functionality
- Safety & quality standards
- Highly precise & custom-designed

Benefits

- Significantly increase production
- Easy-to-use interfaces
- Faster package changeovers
- Exceed customer ROI expectations
- Minimal maintenance requirements
- Easy expansion and modification options
