GLASS

Complex Glass Industry Robotics

Reducing breakage and ensuring safety are top priorities for flat glass manufacturers. QComp Technologies is the crystal-clear choice to achieve both.

Our robotic glass packaging automation integrations optimize processes using vision-guided robotics, high-payload robots, and advanced inspection systems. Our ingenious approach to tooling, programming, and configuration is relied upon by global leaders in the glass industry. Discover a better way to improve safety and throughput with our automation solutions in the glass industry.

Developing a Solution Isn't Enough.

Customers choose QComp because of our deep experience, skill, and ingenuity in designing and installing custom robotic automation for complex glass handling challenges. Our team works side-by-side with our customers to simulate potential solutions in real-time and, together, we envision a finished product. We are relentless in our pursuit of customer satisfaction, not only promising optimal OEE but delivering on that promise.

We conquer complexity.

Features

- Consistent reliability
- Safety & quality standards
- Custom designed 3D vision guidance
- Pick & place with exact accuracy
- Easy to use interfaces

Benefits

- Significantly increase production
- Increased safety and ergonomics for employees
- Exceed customer ROI expectations
- Remarkable breakage reduction
- Easy expansion and modification options
