

NON-WOVENS

# Non-Woven Automation Solutions

**Pick, package, assemble, count, test, sort, and verify your product all while driving quality, efficiency, and profitability.**

QComp Technologies specializes in the non-woven industry and has tackled (and solved) the toughest material handling challenges. The industry's manufacturing processes are ever-changing, and safety and regulations need to be upheld at every step. Introduce flexible robotics and automation into the equation for a consistent, verified, accurate solution that meets the requirements of multiple products and processes.

## **Developing a Solution Isn't Enough.**

Customers choose QComp because of our deep experience, skill, and ingenuity in designing and installing custom robotic automation for complex non-woven handling challenges. Our team works side-by-side with our customers to simulate potential solutions in real-time and, together, we envision a finished product. We are relentless in our pursuit of customer satisfaction, not only promising optimal OEE but delivering on that promise.

**We conquer complexity.**

## **Features**

- Reliability & durability
- Safety & quality standards
- Faster package changeovers
- Highly precise & custom-designed

## **Benefits**

- Significantly increase production
- Easy-to-use interfaces
- Fully integrated solutions for end-of-line processes
- Minimal maintenance requirements
- Easy expansion and modification options
